

## ARE WE VOTERS DUMB AS A MOUSE

BY J. L. KIMBRO, KINSTON, ALABAMA

My wife set a trap one night last week after she had discovered that a mouse had gotten into the kitchen and reared her little. Next morning there was the trap and a mouse's hind leg. Obviously, Mamma Mouse had been caught by the leg, and the leg nearly cut off by the trap and the mouse finished pulling her leg off when she attempted to drag the trap under the range, the trap too thick to pass under. Mrs. Mouse escaped—for the time being—but minus a leg.

Next night the trap was retied and reset in the

vore in Russia, and the way they did it at the Democratic National Convention in Atlantic City.

Now they have reset the same old trap again in the same spot and baited it with the same kind of bait. The bait is called "prosperity" one time and "poverty" the next. And we voters are taken to be too dumb to know the difference.

Are we voters dumb as we are taken to be and ready not to drag ourselves back to the same old baited trap for our one last nibble? If we are too dumb to know the difference between prosperity and poverty we may be too dumb to know the difference between freedom and the lack of it.

They are already telling us that we can buy and sell only when we shall have done their bidding—when we shall have received their marching orders or in our foreheads, or the number of heads, or the number of foreheads in Rev. 13:16-17. Without their mark, name or number, no one can get a government job or contract now, nor hire and fire, or direct a private business.

Are we going to be dumb enough on November 3 to take another nibble of the same old bait? Not I, Sir! I have nibbled too many times already!

Four years hence we may not have left even one bruised leg to help us drag ourselves to a free election and will have not a single leg left except to vote as they

## Farm NEWS

BY TOM CASADAY, CO. AGENT

Coffee County hog producers who feel a real need to improve their breeding stock will have an opportunity to buy some top quality boars and gilts Friday in Elba.

The third annual all-breed sale will be held rain or shine beginning at 1:00 p.m. Friday, October 30, at the Old Elba Livestock Barn on the Elba-Troy Highway.

I know for a fact that hundreds of Coffee County hog producers need to buy better breeding stock. This will be an excellent opportunity to upgrade your herd.

We have a new bulletin on pecan production which Brocton, Fox, Brunson was prepared by John Bag-

FRANK BRITT (right) of the Mt. Pleasant Community in Coffee County shows County Agent Tom Casaday a good crop of soybeans. Britt plants soybeans after combining oats and finds the combination is usually profitable.

and Charles Mallory of Kinston.

The annual meeting is scheduled for November 4, 5, and 6 to be held in Mobile.

Faye Allen, daughter of Mr. and Mrs. Ira Allen of New Brockton, Rt. 1, will represent Coffee County in the talent contest at the Alabama Farm Bureau Federation annual meeting in Mobile November 4, 5, and 6.

Faye participated in the county contest and was selected. She is a sophomore at Troy State College.

Folks who plant coastal bermudagrass say a lot of good things about it. In fact, I have never seen a disappointed coastal bermudagrass producer.

One big drawback in years past has been getting it started. This problem is being taken care of. I know of a few commercial producers who do the entire job for so much per acre.

February is a good time to sprig coastal bermuda. If you are interested, select land and have it soil tested now. Let me know if I can help you locate a man who plants sprigs.

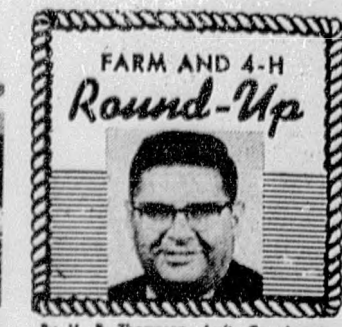

One of the great limiting factors in crop and pasture production in Coffee County is lime. Limestone dealers have only a few months to get lime spread.

I strongly recommend soil testing be done early so that lime can be applied. It takes several months for the chemical changes in the soil to take place.

We want to designate November as soil testing month in Coffee County. Several people have tested in October. Decide where you want to plant your cotton and peanuts next spring and go ahead and take a sample and send to the soil laboratory at Auburn.

We are placing soil testing supplies in the hands of all the feed, seed, and fertilizer dealers, vocational agricultural teachers, and at the county agent's office. Supplies will also be available at many of the crossroad stores in the county.

For better service from your woolen garments, brush and air them after each wearing.

By H. B. Thompson, Asst. Co. Agent

## FARM AND 4-H Round-Up

Bull, Wigham and Wendell Hughes, Mt. Pleasant 4-H Club, represented Coffee County in the annual calf scramble at the Peanut Festival last week. Both these boys gave the calves a good chase, but lost out.

After the calf scramble, they entered the greasy pig chase and both of them came out with a purchased spotted gilt.

Bob Helms and Joseph Rodgers, 4-H'ers from Mt. Pleasant and New Brockton, entered six of the best pullets in the poultry show at the Peanut Festival.

Bob's pullets placed first in the Festival. We certainly want to congratulate him for the fine job that he has done with his chickens this year.

We would encourage every peanut producer in Coffee County to test their peanut land this year. Test early so the results can get back in time to apply lime early this fall or winter.

If you test within the next few days, you will be ahead of the rush at the soil laboratory.

We would like to see all the land tested every three years if possible. At the present time, we are putting out only a fraction of the tonnage of lime that we need in the county.

One way to increase yields is to apply the proper amount of the right kind of fertilizer. Soil testing is the only way you can be sure.

All beef calves for the 4-H, FFA, and FFA Calf Show and Sale next spring should be on feed by November 1, 1964.

If we can assist you in finding calves, please let us know.

Before retreating machinery for the year, be sure to clean, check, and repair all machines and equipment.

Give special attention to fertilizer hoppers and boxes. Wash all fertilizer out of equipment and cover inside surfaces with a heavy oil. Coat pipes and landpolished surfaces with a rust preventive or heavy grease. A little paint will always aid to the equipment's appearance and protect it from weather and rust.

Store all equipment under a shed or inside a building for weather protection.

Friday, October 30, is the date of the big all-breed hog sale in Elba at the Old Elba Livestock Barn on the Elba-Troy Highway. The sale gets underway at 1:00 p.m. There will be boars, open gilts, and bred gilts of the Hampshire, Yorkshire, Spotted, Poland China, and Duroc breeds offered for sale.

Several animals that placed in the State Fair, South Alabama Fair, and the Peanut Festival will be among those in the sale. Be there early and pick out the hogs of your choice. We can improve the quality of our hogs by using good purebreds in a good crossbreeding program.

## THE THREAT OF SMALLPOX IS STILL WITH US

It is almost impossible to get smallpox if vaccinated against it. But, unfortunately, immunity only lasts for about five years after vaccination. After that, if exposed to a smallpox carrier, this dread disease can be acquired.

His every member of your family been immunized against smallpox within the past five years? If not, phone your physician for an appointment as soon as possible. The cost of smallpox vaccine is so low that everyone should be vaccinated every five years.

YOUR DOCTOR CAN PHONE US when you need a vaccine. Pick up your prescription if shipping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Beef continues to be plentiful and pot roasts are especially good buys this month. For a main course, try a two-inch-thick arm pot roast, served with potatoes, carrots, onions and gravy. If an entire arm roast is too big for your family, just follow the natural seams of the meat and divide it into smaller roasts.

## Get the most from your party line

Following the Good Neighbor Policy on your party line telephone will assure you the greatest benefit from your phone... because common telephone courtesy works both ways. You and your neighbor can benefit from these simple suggestions: 1. Wait a few moments between calls to give your neighbor a chance to phone. 2. Don't prolong conversation when you know a neighbor wishes to use the line. 3. Always relinquish the line to a neighbor in a case of emergency (it may save a life). 4. Try to work out nonconflicting schedules with those sharing your line. We hope you'll give these suggestions a trial—because all parties benefit from being fair in the way they share a party line.

When a carpet is crushed down by furniture or walking, use a hot iron over a damp cloth, or a steam iron to raise it. Be careful not to press down on the iron. Brush up the spots gently after treating them. Try the same treatment on the front and back of carpet corners that curl.

The combined Marine landing force will be carried and protected by a U. S.-Spanish fleet of 94 vessels, including ships of the United States' Military Sea Transport Service and chartered ships of the U. S. merchant fleet.

Operation STEEL PIKE is being conducted to show the ability of U. S. and Allied amphibious forces to rapidly place large numbers of troops ashore and maintain them for as long as necessary. The operation will also train the forces of both countries in conducting joint operations.

Spanish Air Force units will fly missions in support of the landing force along with U. S. Navy and Marine aircraft operating from fast attack carriers and from the Marines' short airfield for tactical support (SATS).

SATS is, in effect, a carrier flight deck, including catapults and arresting gear, moved ashore. It was developed by the Marine Corps to allow Marine air units to go ashore quickly to support Marine ground forces in amphibious operations.

Most of the United States units taking part in operation STEEL PIKE will return to the U. S. during the first week in December.

**ATOMIC ENERGY**

How wonderful is enthusiasm. Mom and Dad will forgive this noise. They catch the spirit and joy of their young drummer boy.

Enthusiasm is not limited to small fry. But as we grow older, these joyous moments when our spirits ride high, wear thin and are diluted by everyday cares.

This is true of our religious experience. Often we are filled with eager enthusiasm when we pray and worship. Our church can guide this energy in channels of service and love.

But often our religious enthusiasm fails. In these moments when our spirits lag, we are sustained and encouraged by the enthusiasm of our fellow Christians.

How wonderful is enthusiasm. Come to church to have it renewed — Sunday and always.

#### THE CHURCH FOR ALL

ALL FOR THE CHURCH  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
